# 1 Introduction

Welcome to the Beijing 2022.

The Beijing Organizing Committee of the Olympic and Paralympic Games (hereinafter referred to as "Beijing 2022") is working to provide the Athletes and Team Officials with simple, safe and efficient transportation services. The Athletes and Team Officials Transport Guide has been issued to share the current Beijing 2022 transport plan with stakeholders and help them plan their journey at the Beijing 2022 Games.

Beijing 2022 offers a range of transport services to the Athletes and Team Officials under epidemic prevention and control, which will be adjusted according to the epidemic situation. Please see the final version of the Athletes and Team Officials Transport Guide for the latest information.

Due to the impact of the epidemic, all foreign Olympic personnel are required to be under the closed-loop management and are not allowed to use public transport; only Olympic-specific transportation can be used and personnel must travel within the official destination list of places. Beijing 2022 will provide transport services from January 21(Olympic Villages pre-start from January 23), 2022 to February 23, 2022.

From January 21, transport services available include:

Category	On Arrival	On Arrival	Inside-zone	Cross-zone
<b>Transport Service</b>	Athletes and Team Officials Arrivals and Departures (AND) bus direct to Olympic Village in each zone	ATO and NOC Arrivals and Departures (AND) bus to each zone	Athletes and Team Officials Transport System (TA)	Athletes and Team Officials Transport System (TA-CROSS)
<b>Operation date</b>	From 23 Jan.	From 21 Jan.	From 23 Jan.	From 23 Jan.

For the service of the Dedicated vehicles, Rate Card vehicles, please refer to *Allocated Vehicles, Rate Card Vehicles and Drivers Operations Plan* published on December 7, 2021.

### 3.4 Equipment Service

The carry-on baggage from the airport to the designated accommodation sites will be on the shuttle bus with athletes. If the shuttle bus fails to carry all the carry-on baggage, the Beijing 2022 Transport team will arrange for additional vehicles to carry the baggage, which will follow the shuttle bus to the designated accommodation sites.

Large luggage will be transported to the locations (village, wax cabin, etc.) by truck provided by Logistic team, the truck need to go to the RVSS for security check then transport the luggage to the Residential zone of the villages, NCS will inform NOCs afterwards.

\* Logistics is responsible for the relevant processes related to RVSS, and we will provide necessary transportation as needed.

## 4 Athletes and Team Officials Transport Services(TA)

The operation date of the TA transport system for athletes and team officials is from 23 January to 23 February 2022. The TA system will provide transport services between the Olympic Villages and competition/training venues, ATO hotels and Olympic Villages, and shuttle buses connecting the Olympic Villages in Beijing, Yanqing and Zhangjiakou.

Transport system for athletes and team officials includes:

- Transport services between the Olympic Villages, competition and training venues
- Transport services among three Olympic Villages (Including transfer to the Big Air Shougang )
- Transport services for additional team officials.

NOCs can take TG shuttles except athletes.

### 4.1 TA Operation Principles

TA system is operated in the principle of “clean-to-clean” for competition and training venue and cross zone transport.

Buses can leave even before the scheduled departure time as soon as they are full. The later buses will still operate as per the predetermined schedule. There will be more than one vehicle serving the same departure time. The timetable for the current day and the next day will be updated on “My 2022”. Water and food will not be provided in the vehicle.

For team events, special TA buses are provided according to the country and exclusive services are provided throughout the competition; for individual events, TA shuttles are provided from the Olympic Village to each venue.

Carry-on baggage can be transported along with the vehicles. For Ice Hockey and other sports that need large quantities of equipment, freight vehicle service can be reserved through the logistics service desk at the NOC Service Centre.

Passenger occupancy or full occupancy rate is no higher than 50% and the seats are

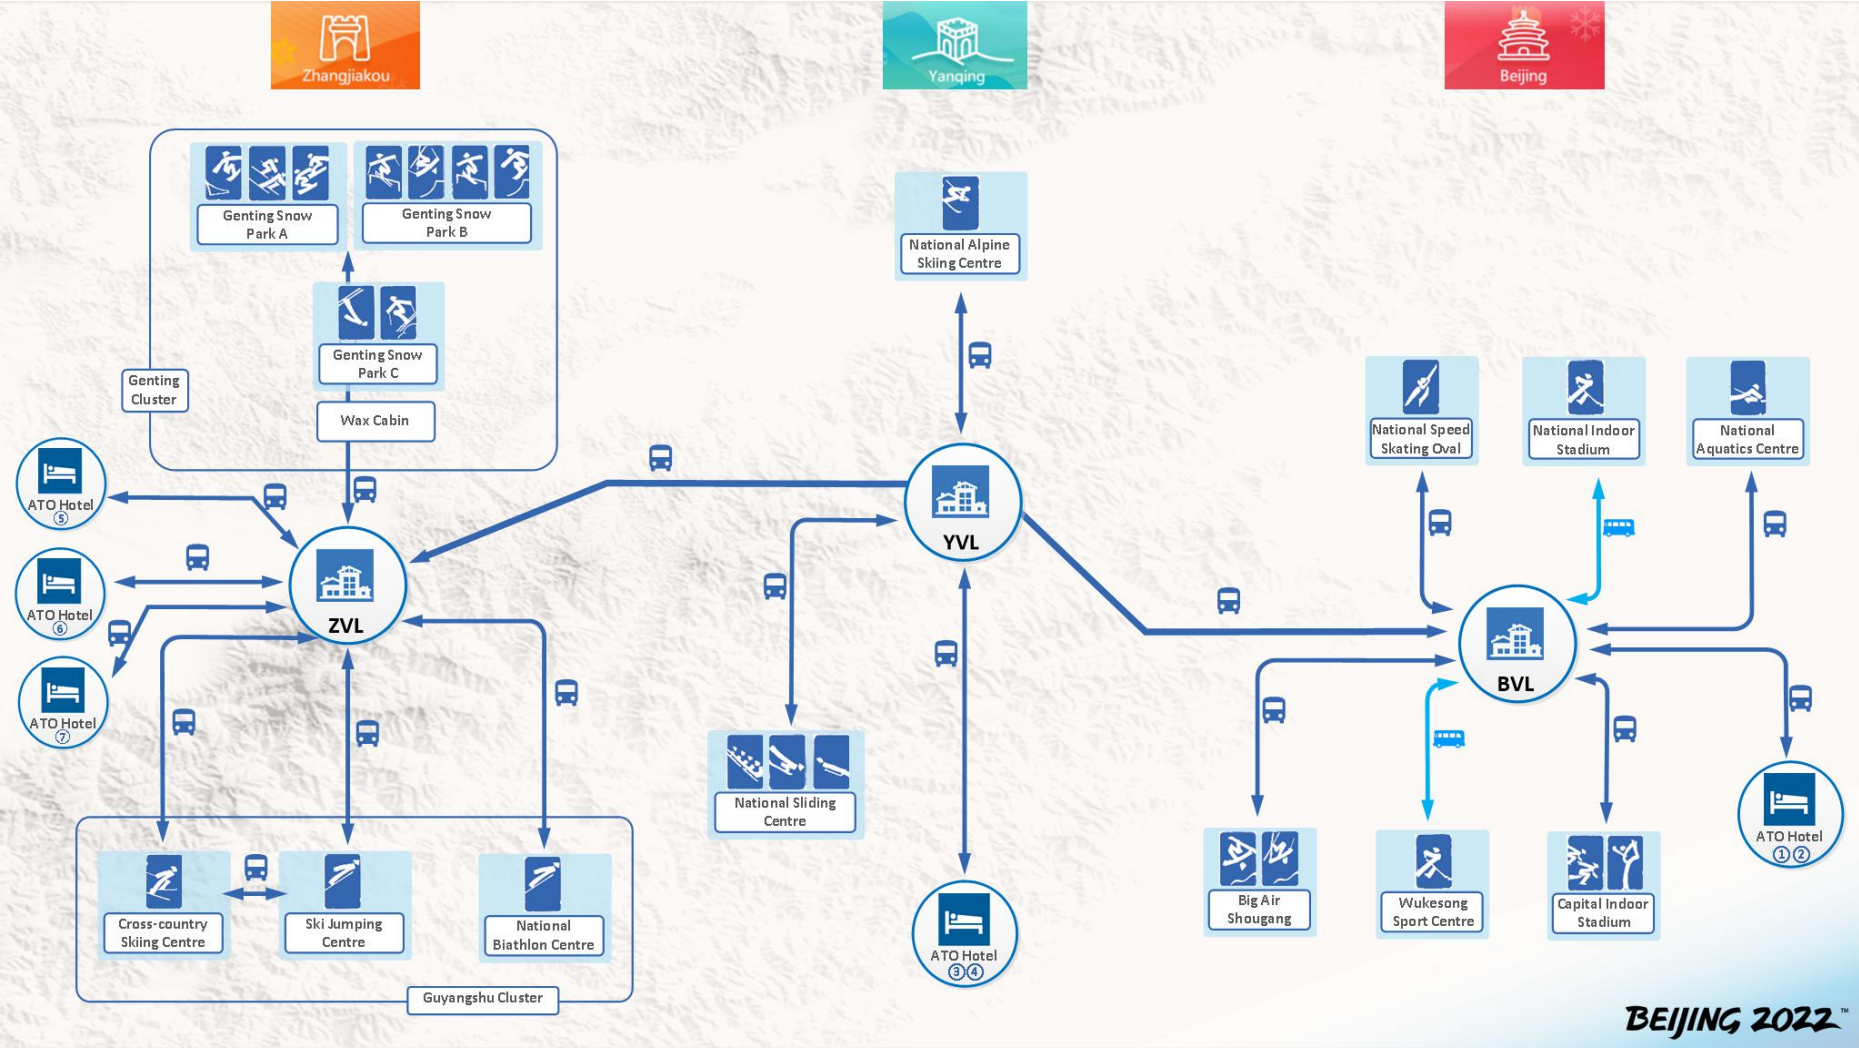

marked. Passengers sit alone with no one besides, and wear medical protective masks all the time.

TA transport services may be adjusted according to changes of the Games, and athletes and team officials can obtain relevant information through the transport service desk at the NOC Service Centre.
